## Child Executive Functioning Inventory (CHEXI) Parent/teacher-report

Below, you will find a number of statements. Please read each statement carefully and thereafter indicate how well that statement is true for the child. You indicate your response by circling one of the numbers (from 1 to 5) after each statement.

Partially true

Not true

1. Has difficulty remembering lengthy instructions123452. Seldom seems to be able to motivate him-/herself to do something that he/she doesn't want to do123453. Has difficulty remembering what he/she is doing, in the middle of an activity123454. Has difficulty remembering what he/she is doing, in the middle of an he/she is promised some type of reward for doing so123455. Has a tendency to do things without first thinking about what could happen123456. When asked to do several things, he/she only remembers the first or last123457. Has difficulty coming up with a different way of solving a problem when he/she gets stuck123458. When something needs to be done, he/she is often distracted by something more appealing123459. Easily forgets what he/she is asked to fetch1234511. Has clear difficulties doing things he/she finds boring1234512. Has difficulty planning for an activity (e.g., remembering to bring everything necessary for a field trip or things needed for school)1234513. Has difficulty holding back his/her activity despite being told to do so12345	De	Definitely not trueNot truePartially trueTrue1234			Definitely true 5					
1123452. Seldom seems to be able to motivate him-/herself to do something that he/she doesn't want to do123453. Has difficulty remembering what he/she is doing, in the middle of an activity123454. Has difficulty following through on less appealing tasks unless he/she is promised some type of reward for doing so123455. Has a tendency to do things without first thinking about what could 										
that he/she doesn't want to do123453. Has difficulty remembering what he/she is doing, in the middle of an activity123454. Has difficulty following through on less appealing tasks unless he/she is promised some type of reward for doing so123455. Has a tendency to do things without first thinking about what could happen123456. When asked to do several things, he/she only remembers the first or last123457. Has difficulty coming up with a different way of solving a problem when he/she gets stuck123458. When something needs to be done, he/she is often distracted by something more appealing123459. Easily forgets what he/she is asked to fetch (e.g., going on a field trip, going to a party)1234511. Has clear difficulties doing things he/she finds boring everything necessary for a field trip or things needed for school)1234513. Has difficulty planning for an activity (e.g., remembering to bring everything necessary for a field trip or things needed for school)1234513. Child Executive Functioning Inventory

$\begin{array}{c ccccccccccccccccccccccccccccccccccc$	Definitely not trueNot truePartially trueTrue1234	Definitely true 5
---	---	----------------------

14. Has difficulty carrying out activities that require several steps (e.g., for younger children, getting completely dressed without reminders; for older children, doing all homework independently)	1	2	3	4	5
15. In order to be able to concentrate, he/she must find the task appealing	1	2	3	4	5
16. Has difficulty refraining from smiling or laughing in situations where it is inappropriate	1	2	3	4	5
17. Has difficulty telling a story about something that has happened so that others may easily understand	1	2	3	4	5
18. Has difficulty stopping an activity immediately upon being told to do so. For example, he/she needs to jump a couple of extra times or play on the computer a little bit longer after being asked to stop	1	2	3	4	5
19. Has difficulty understanding verbal instructions unless he/she is also shown how to do something	1	2	3	4	5
20. Has difficulty with tasks or activities that involve several steps	1	2	3	4	5
21. Has difficulty thinking ahead or learning from experience	1	2	3	4	5
22. Acts in a wilder way compared to other children in a group (e.g., at a birthday party or during a group activity)	1	2	3	4	5
23. Has difficulty doing things that require mental effort, such as counting backwards	1	2	3	4	5
24. Has difficulty keeping things in mind while he/she is doing something else	1	2	3	4	5
